Objective

I build and analyse secure systems through hands-on cybersecurity projects and research. My primary focus is identifying vulnerabilities, strengthening network infrastructure, and exploring graph-theoretic approaches to parallel and distributed computing.

Educational Qualification

Course	Institution	Year	Grade
B.E. (CSE-CS)	Rajalakshmi Engineering College (Autonomous), Chennai – 602 105	2024 – Present	9.01
Class XII	Velammal Vidyalaya, Chennai – 600 095	2024	94.2%
Class X	Velammal Vidyalaya, Chennai – 600 095	2022	89.8%

Academic Achievements

- **Top 2nd Rank** in Dept. of CSE (Cyber Security) – 2nd Semester, Rajalakshmi Engineering College
- **Top 3rd Rank** in Dept. of CSE (Cyber Security) – 3rd Semester, Rajalakshmi Engineering College
- **100% Attendance** (2nd Semester) – Maintained full attendance consistently since primary schooling

International Journal Publications

Science Citation Indexed (SCI) • Q1 Journal • Impact Factor 3.9 • Anna University Annexure I:

1. Prabhu, S., Anitha, M., **Vidyarth, N.H.** *et al.* “Average distance between the processors of biswapped networks.” *Scientific Reports*, Springer Nature (2025). doi:10.1038/s41598-025-29965-5

Papers Presented

1. “**Exact Number of Paths of Length 3 in a Biswapped Network**”
First International Conference on Discrete Mathematics, Optimization and Algorithms 2026 (ICOD-MATH2026), Rajalakshmi Engineering College 7–9 May 2026
Oral presentation on graph theory applications in interconnection networks.
2. “**Distance in Swapped Networks**”
First International Conference on Discrete Mathematics, Optimization and Algorithms 2026 (ICOD-MATH2026), Rajalakshmi Engineering College 7–9 May 2026

Oral presentation on graph theory concepts in network structures.

3. **“Certain Distance Parameters of Biswapped Networks”**
21st ADMA–ICDM 2025, Cochin University of Science and Technology (CUSAT), Kerala.
Explored graph-theoretic distance parameters applied to network analysis. Associated paper accepted in *Scientific Reports* (Q1, SCI, IF 3.9).
4. **“Wiener Index of Biswapped Networks”**  **Best Paper Award**
IC-CAMSTIA 2025, Dept. of Mathematics, St. Joseph’s Engineering College, Chennai.
Explored graph invariants and their applications in modern computing and network analysis.

Conferences, Workshops & Competitions

1. **Sudarshan Capture The Flag (CTF) 2026**  **Top 25 Participants**
National Forensic Sciences University, Bhopal Campus 11 April 2026
Competed in cryptography, web exploitation, digital forensics, reverse engineering, and network security challenges.
2. **Organizing Team Member – ICODMATH2026**  **Certificate of Appreciation**
First International Conference on Discrete Mathematics, Optimization and Algorithms, Rajalakshmi Engineering College 7–9 May 2026
Coordinated with academicians, researchers, and participants from multiple institutions.
3. **Industry-Assisted Lecture Series: Systems for LLM’s**  **Certificate of Merit**
PALS – IIT Alumni Initiative in collaboration with *Rajalakshmi Engineering College* 12 Feb 2026
Led by scientists from IBM Research. Covered LLM development, optimisation, and large-scale deployment over sessions on 3, 5, and 12 February 2026.
4. **ICCE 2026 - International Conference on Computational Engineering**
Division of Mathematics, SIMATS, Chennai 9–10 Feb 2026
Engaged with global researchers on computational mathematics, graph domination, network modelling, and applications of computational intelligence to cybersecurity and threat detection.
5. **ISRO Campus Visit - Satish Dhawan Space Centre (SDSC SHAR)** Jan 2026
Indian Space Research Organisation, Sriharikota
Visited with Prof. Savari Prabhu and Dr. Gunasekar S. Met Scientist E & Deputy Manager Mr. Vijayakumar; gained insights into launch operations, propellant systems, engineering challenges, and ISRO’s open research projects.
6. **ICGTA-2025 - International Conference on Graph Theory and Its Applications**
Dept. of Mathematics, Amrita Vishwa Vidyapeetham, Coimbatore 15–17 Dec 2025
Engaged with international researchers and scholars; expanded understanding of current research trends and open problems in graph theory and its computing applications.
7. **Smart India Hackathon 2025**  **National Runner-Up**
Team QUARTET, representing Rajalakshmi Engineering College 08-09 Dec 2025
Engineered a pragmatic, technology-based solution to a real-world problem under strict time constraints. Advanced through 650+ teams in PPT screening and internal hackathon rounds.
8. **ICPC 2024 - International Collegiate Programming Contest**
SRM KTR, representing Rajalakshmi Engineering College Nov 2025
Sharpened algorithmic problem-solving, competitive programming, and collaboration skills.
9. **21st ADMA–ICDM 2025**
Cochin University of Science and Technology (CUSAT), Kerala 07-10 June 2025
Engaged with scholars on graph theory, network analysis, and parallel & distributed computing.
10. **IC-CAMSTIA 2025**
Dept. of Mathematics, St. Joseph’s Engineering College, Chennai 25-26 Jul 2025
Engaged with researchers in applied mathematics and network analysis; received Best Paper Award.
11. **ICCE Workshop: “Antimagic Labelling: From Graph Theory to Cryptography”**

Studied applications of graph-theoretic principles in modern cryptographic frameworks.

12. Bebras Computing Challenge 2024 National Rank #4 • College Rank #1

Pingala – English Group

Nov 2024

Attained 148 points; secured 1st place at collegiate level and 4th nationally. Tested problem-solving, computational thinking, and analytical skills through real-world computing challenges.

Internship

Python Full Stack Development Intern

December 2025 (15 Days)

3Dots

Gained practical exposure to front-end and back-end development, Python frameworks, database management, and end-to-end web application development. Strengthened technical expertise in industry-standard development methodologies.

Projects

1. Official Website - Proelium Academy of Mixed Arts

Dec 2025

www.proeliumacademy.in

Designed, built, and deployed a full website from scratch. Independently handled domain purchase and management, official email setup, hosting, deployment, SEO, and ongoing maintenance.

2. Multi-Platform System Hardening Tool

Dec 2025

Automated, cross-platform OS security hardening tool supporting Windows 10/11, Ubuntu (20.04+), and CentOS (7+). Applies CIS Benchmark parameters, performs security checks and remediation, exports PDF compliance reports with severity ratings, and supports full rollback of configurations. Features both CLI and optional GUI interfaces. Aligned with industry-standard hardening policies.

3. Secure Data Wiping Tool for IT Asset Recycling

Oct 2025

Cross-platform (Windows, Linux, Android) data sanitization application addressing India's e-waste crisis. Securely erases all user data including HPA/DCO and SSD sectors, generates digitally signed tamper-proof wipe certificates (PDF & JSON), supports bootable ISO/USB for offline use, and enables third-party verification. Standards-compliant with NIST SP 800-88. Developed as part of Smart India Hackathon 2025.

4. ICPC Companion App for Autism Kids

Dec 2024

Mobile application developed for the International Collegiate Programming Contest using Flutter and Android Studio. Built to support contest workflows and programming challenge management.

Certifications & Courses

1. World Karate Federation (WKF) Approved Judge B

Apr 2025

Internationally accredited judging certification reflecting years of training, competition, and mastery of WKF technical and ethical standards. Mentored by Mr. D. Nirmal Kumar, Joint Secretary, Thiruvallur Sports Karate Do Association.

2. Complete Guide to C Programming Foundations

Covered memory management, pointers, data structures, control flow, and procedural programming paradigms.

3. MongoDB Basics for Students

Gained proficiency in NoSQL principles, CRUD operations, aggregation pipelines, and MongoDB Atlas.

Extracurricular Achievements

Martial Arts 2nd Dan Black Belt in Karate; WKF Approved Judge B;
Music Active musician - Keyboard Player
Web Dev Co-developed and deployed proeliumacademy.in - full stack, including domain, hosting, SEO

Technical Skills

Languages Python, C, JavaScript, HTML/CSS
Frameworks Python Full Stack (Django/Flask), MongoDB, NoSQL
Research Graph Theory, Network Analysis, Parallel & Distributed Computing
Security Vulnerability Analysis, Network Hardening, Secure System Design, Cryptography, Digital Forensics, Reverse Engineering
Tools Git, GitHub, MongoDB Atlas, Web Hosting & Deployment, SEO

Languages Known

Read, Write & Speak: Tamil, English

Career Interest

Action-oriented by nature, I actively seek challenging opportunities at the intersection of cybersecurity, parallel computing, and mathematical research. I aim to contribute to secure and resilient computing systems through both rigorous research and practical engineering.

Declaration: I hereby declare that the information provided above is true and correct to the best of my knowledge.
